## The Aims of Rainbow Preschool

Rainbow Preschool aims to provide a welcoming, inviting, friendly and nurturing environment. At Rainbow we believe that each child, family and educator is a unique and valued individual. We value and honour diversity and accept and celebrate differences in other people. We believe each person and their family's values, culture, beliefs, abilities and language should be acknowledged and accepted and reflected in the preschool environment. Rainbow Preschool believes that children are capable, resourceful and competent individuals who are co constructors of their learning.

Rainbow Preschool believes that play is essential to the lives of young children. The learning environment is planned specifically around children's interests and strengths. We base our program on the premise that children learn and develop through play and learn most effectively within an unhurried environment where meaningful, authentic experiences are offered.

Rainbow provides a quality education program which encompasses the Early Years Learning Framework and looks at childhood as a time of '*Belonging, Being & Becoming*'. Our program embraces the framework's five learning goals and aims to assist children to develop:

- a strong sense of their identity
- connections with their world
- a strong sense of wellbeing
- confidence and involvement in their learning; and
- effective communication skills.

## Security at Preschool

Please remember to shut the side gate as you come in and as you exit. We need to keep our children safe and as you would know our 3-5 year olds can be very quick off the mark. We also need to be mindful of the security implications. Thank you for your consideration.

As an added security measure please **DO NOT** tell your children the security code! We have had children let themselves out of the preschool gate as they know the code. This could potentially be very dangerous.
